thin solid films

Contents

Preface vii

MBE Growth Fundamentals

Approaches to understanding MBE growth phenomena 1
M.A. Herman (Warsaw, Poland)

The origin of surface roughening in lattice-mismatched Frank van der Merwe type heteroepitaxy. 15
G. Springholz, N. Frank, G. Bauer (Linz, Austria)

Islands and critical thickness of InAs grown by MBE on nominally- and misoriented GaAs substrates 24
A. Sasaki (Kyoto, Japan)

Self-organization processes in MBE-grown quantum dot structures 32
D. Bimberg, M. Grundmann, N.N. Ledentsov (Berlin, Germany), S.S. Ruvimov, P. Werner, U. Richter, J. Heydenreich (Halle, Germany), V.M. Ustinov, P.S. Kop'ev, Zh.I. Alferov (St. Petersburg, Russia)

MBE growth mechanisms; studies by Monte-Carlo simulation. 37
H. Sitter (Linz, Austria)

A study of a kinetic rate equation model for simulations of MBE crystal growth: a comparison with Monte Carlo simulations 47
D. Papajová, Š. Németh (Bratislava, Slovakia), W.E. Hagston (Hull, UK), H. Sitter (Linz, Austria), M. Veselý (Bratislava, Slovakia)

The effect of the MBE growth rate on the surface phase diagram for GaAs (001) 51
V.V. Preobrazhenskii, D.I. Lubyshev (Novosibirsk, Russia), K. Regiński, J. Muszalski (Warsaw, Poland)

Static phase diagrams of reconstructions for MBE-grown GaAs(001) and AlAs(001) surfaces. 54
K. Regiński, J. Muszalski (Warsaw, Poland), V.V. Preobrazhenskii, D.I. Lubyshev (Novosibirsk, Russia)

Materials-related Phenomena in MBE-grown Structures

Growth and characterization of quantum structures of diluted magnetic semiconductors 58
J. Kossut (Warsaw, Poland)

Luminescence study of $CdTe/Cd_{1-x}Mn_xTe$ quantum wells grown by MBE. 64
M. Kutrowski, K. Kopalko, G. Karczewski, T. Wojtowicz, J. Kossut (Warsaw, Poland)

Band structure of MBE-grown ZB-MnTe/CdTe—optical and photoemission studies 69
B.J. Kowalski, E. Guziewicz, B.A. Orłowski, E. Janik, G. Karczewski, T. Wojtowicz, J. Kossut (Warsaw, Poland), T. Van Gemmeren, T. Buslaps, R.L. Johnson (Hamburg, Germany)

Structural properties of cubic MnTe layers grown by MBE 74
E. Janik, E. Dynowska, J. Bąk-Misiuk, M. Leszczyński, W. Szuszkiewicz, T. Wojtowicz, G. Karczewski, A.K. Zakrzewski, J. Kossut (Warsaw, Poland)

Properties of epitaxially grown CdTe layers doped with indium 79
G. Karczewski, A.K. Zakrzewski, L. Dobaczewski, W. Dobrowolski, E. Grodzicka, J. Jaroszyński, T. Wojtowicz, J. Kossut (Warsaw, Poland)

Exciton dynamics in thin AlGaAs/GaAs quantum wells grown by MBE 84
M. Bugajski, M. Godlewski (Warsaw, Poland), J.P. Bergman, B. Monemar (Linköping, Sweden), K. Regiński, M. Kaniewska (Warsaw, Poland)

Epitaxial metal silicides: interface mapping by scanning probe techniques. 89
H. von Känel, E.Y. Lee, H. Sirringhaus, U. Kafader (Zürich, Switzerland)

Elsevier Science S.A.

Epitaxial silicides: new results from RHEED analysis 95
P. Mazurek, K. Paprocki, P. Mikołajczak (Lublin, Poland)

Device Structures and Superlattices

GaInAsP gas-source MBE technology 99
M. Pessa, K. Tappura, A. Ovtchinnikov (Tampere, Finland)

Growth and characterization of p-type GaAs/(AlGa)As heterostructures grown on high-index GaAs surfaces 106
M. Henini, P.J. Rodgers, P.A. Crump, B.L. Gallagher, R.K. Hayden, L. Eaves (Nottingham, UK)

Morphology of the InAlAs/InP interface in the MBE-grown heterostructures analysed by SIMS depth profiling 114
P. Konarski, M.A. Herman (Warsaw, Poland), A.V. Kozhukhov, V.I. Obodnikov (Novosibirsk, Russia)

The controlled growth of high-quality mercury cadmium telluride 121
V.S. Varavin, S.A. Dvoretsky, V.I. Liberman, N.N. Mikhailov, Yu.G. Sidorov (Novosibirsk, Russia)

Quasi-two-dimensional electron layer in ZnCdHgTe and PbS heterostructures 126
A. Andrukhiv, G. Khlyap, M. Andrukhiv (Drogobych, Ukraine), L. Bochkariova (Yaroslavl, Russia)

Electronic surface states in a semi-infinite effective-mass superlattice 129
R. Kucharczyk (Wrocław, Poland)

The epitaxial growth of IV–VI heterostructures and superlattices on (001)Si 134
A.I. Fedorenko, A.G. Fedorov, A.Yu. Sipatov (Kharkov, Ukraine), O.A. Mironov (Coventry, UK)
